6. Authorization:

- By completing this membership application, you are authorizing FlaSEIA to communicate with you by the provided information.
I do NOT wish to receive texts or e-mails regarding FlaSEIA activities, events or member benefit programs.
Membership entitles each company one vote (except non-voting members).
Applicant agrees not to act as a contractor without proper licensing.
Applications will not be processed until payment is received.

Please Note: A portion of your annual dues may be designated to support the Solar Power PAC. At this time, that amount has been determined to be \$25. If you wish to have your dues go directly into the general dues fund, check off the box below. Payment should still be for the full dues amount.

I do not want any of my annual dues to go to the Solar Power PAC.

Important Notice: Dues payments to the Florida Solar Energy Industries Association may be deductible as ordinary and necessary business expense, subject to any exclusion for lobbying activity. Because a portion of your dues is used for lobbying, 25% of the total FlaSEIA dues is not deductible for income tax purposes. Dues payments are not tax deductible as charitable contributions for federal income tax purposes.

I hereby state that the information provided is correct and the company meets the requirements for membership listed in section two. Furthermore, my company agrees to abide by the FlaSEIA Code of Ethics which has been provided to me as part of this Membership Application.

Code of Ethics:
It is the policy of the Florida Solar Energy Industries Association and its members to make the largest contribution possible to the health, safety and welfare of the public through careful design, installation, operation and maintenance of solar energy systems. Consistent with fair business practice and service in the public interest, members of the Florida Solar Energy Industries Association pledge:
I. FUNDAMENTAL CANONS
1. To offer a reasonable warranty on products and services and to fulfill justifiable claims without hesitation.
2. To advertise only bona fide prices and to sell the merits of products without reflecting unfairly on the products and services of competitors.
3. To provide with clarity all material facts about products and services that need to be understood by the trusting as well as the analytical.
4. To design or install solar energy systems and related products in a manner compatible in every way with public health and safety, and to comply with all applicable laws, ordinances and regulations.
5. To support all efforts to improve solar energy products and services and to encourage research in the development of new materials and methods.
II. RULES OF PRACTICE
1. Members shall hold paramount the safety, health and welfare of the public in the performance of their duties.
2. Members shall act in professional matters for each employer or client as faithful agents or trustees.
3. Members shall, to the best of their ability and knowledge, install systems in compliance with applicable codes and standards.
4. Members shall avoid deceptive acts in the solicitation of solar work.
A. Members shall not falsify or permit misrepresentation of their professional qualifications as a solar contractor.
B. Members shall quote realistic prices and completion dates and, absent any unforeseeable factors, shall strive to fulfill these estimates.
C. Members shall not knowingly quote a project that does not meet solar and other applicable codes. Knowingly presenting bids on work with the intent of profiting from change orders is considered as a significant deceptive practice.
III. PROFESSIONAL OBLIGATION
1. Members shall be guided in all their professional relations by the highest standard of integrity.
2. Members shall admit and accept their own errors when proven wrong and take appropriate action to correct the error.
3. Members shall observe and foster the highest standard of safety and working conditions for employees.
4. Members shall not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation and practices of other members, nor untruthfully criticize other members.
5. Members shall actively participate in the training of skilled tradespeople for the future welfare of the solar energy industry.
6. Members shall not attempt to attract an employee from another firm by false or misleading pretenses.
7. Members shall endeavor to extend public knowledge and appreciation of solar energy systems, their achievements and effect on the environment and to protect the solar energy profession from misinterpretation and misunderstanding.
8. Members shall avoid all practices which are likely to discredit the profession or deceive the public.
